AHMAD KHAIRUL A

Fullstack javascript developer

Profile

I'm Ahmad Khairul Anwar Full-Stack Developer and Web Designer based in Sumedang, West Java.

10 years of experience of work in several fields (IT Hardware Support, Web Developer, Content Management, etc). As for now, I'm a full-time web-front-end Developer

As a Front-End Developer, I love to deliver a good product for clients and users, for now, I am using React Library for most of my projects.

As a Back-End Developer, I knew how to use node js, express js, and PHP to create APIs.

As UI/UX Designer i managed to create desktop-web / mobile design using Figma.
